2,924 sq ft.

Kevin Patrick

The Hilton-Gruhn residence is a true gem hidden away in Naches just off Hwy 12. Kevin Patrick of Terry Patrick Contractor, Inc. (TPC) crafted this home perfectly for it's surroundings, in conjunction with the custom plans provided by Ron Pelson, of Traditional Designs. The craftsmanship of the hand-hewn log siding stands out while the beauty of the house's shape and color blends into the forest background. If you love open plan concepts, then you'll truly appreciate the spaciousness of the "Great Room", where the living area, with it's beautiful log and river rock fireplace and twenty seven foot ceiling peak, extends itself to a dining room, kitchen and family room on the main level. Stunning white and red oak hardwood floors cover this entire area. The tongue and groove floor of the loft serves as a beautiful ceiling for the rooms below, with the staircase as the crowning glory. The master suite, two bedrooms, an office and the main bathroom are more privately contained to the other side of the great room.
